

Akram Khan

Fullstack Javascript Developer

📍 Indore, Madhya Pradesh

Objective

I specialize in the JavaScript ecosystem, particularly React, Next.js, and Node.js. I'm passionate about building scalable, performant, accessible, and visually appealing applications. Currently diving deeper into system designing and cloud computing. Always learning and exploring new parts of the stack.

Technical Skills

Programming Languages: JavaScript, TypeScript

Frontend: React, React Native, Next.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, PostgreSQL, Redis

Operating Systems: Linux

Other Technologies: Google cloud, REST Apis, Git, Web socket, Firebase, Docker

Personal Projects

Deployr - scale up your app

April 2025

- A highly scalable alternative to Vercel and Netlify for deploying and managing applications, with a strong focus on performance and scalability. [\[Link\]](#)

Laundry managment system

Freelance | Oct 2023 – Feb 2024

- Developed a complete Laundry App with an Admin Dashboard and management system using MERN stack and React Native for the customer interface. [\[Link\]](#)
