

Akram Khan

khanakram8435@gmail.com

 Pune, Maharashtra

Objective

I specialize in the JavaScript ecosystem, particularly React, Next.js, and Node.js. I'm passionate about building scalable, performant, accessible, and visually appealing applications. Currently diving deeper into system designing and cloud computing. Always learning and exploring new parts of the stack.

Technical Skills

Programming Languages: C++, Java, JavaScript

Frontend: React, React Native, Next.js, Tailwind CSS

Backend: Spring Boot, Node.js

Database: MongoDB, MySQL, Redis

Other Technologies: Linux, Google cloud, Git, Web socket, Firebase, Docker

Personal Projects

Deployr - scale up your app

April 2025

- A highly scalable alternative to Vercel and Netlify for deploying and managing applications, with a strong focus on performance and scalability. [\[Link\]](#)

Cricket auction platform

July 2026

- AuctXI is a web-based cricket auction management system that automates the entire player auction process. Teams can participate in live auctions, bid for players, and build their squads. [\[Link\]](#)

Education

Post Graduate Certificate Programme in Advanced Computing (PGCP-AC)

Sunbeam Pune-Karad | Feb 2026 - July 2026 | A+ Grade

Master's Degree in Computer Application

SAGE University, Indore | 2026 – 2025

Bachelor's Degree in Computer Science

LBS College Harda, Brakatullah University Bhopal | 2020 – 2023

Additional Skills

- I use AI tools to accelerate development and improve productivity
- Strong problem-solving, analytical, and debugging skills
