

GARV GUPTA

Java Full Stack Developer

Khargone, Madhya Pradesh | +91 62658 96291 | garvgupta1503@gmail.com | linkedin.com/in/garv-gupta-946a0b239

PROFESSIONAL SUMMARY

CDAC PGCP-AC certified Computer Science graduate with hands-on knowledge of Java, Spring Boot, React.js, MySQL, and REST APIs. Completed a Full-Stack Development internship with practical experience in application development and API integration.

EDUCATION

PGCP-AC — Sunbeam Institute of Information Technology (CDAC)	2026 78.4%
B.Tech — Computer Science & Engg., Jawaharlal Institute of Technology, RGPV Bhopal	2025 73.6%
XII — Vaishnav Vidhya Mandir H.S. School, MP Board	2021 64.2%
X — St. Jude Hr. Sec. School, CBSE	2019 60.4%

PROFESSIONAL EXPERIENCE

Sphinx Solution Pvt. Ltd. — Full Stack Developer Intern Jul 2025 – Oct 2025

Indore, Madhya Pradesh

- Developed RESTful APIs in Java and Spring Boot to support core CRUD operations for a production application.
- Integrated MySQL for efficient data storage and retrieval across backend services.
- Collaborated across front-end and back-end layers to ensure seamless integration and consistent data flow.

Sonnentechs — Full Stack Developer Intern Jan 2025 – Mar 2025

Indore, Madhya Pradesh

- Built responsive front-end pages, including login and form workflows, using HTML, CSS, JavaScript, and React.js.
- Integrated front-end components with Java + Spring Boot APIs to support secure user authentication.
- Ensured cross-device responsive design and used Git for version control in a collaborative workflow.

ACADEMIC PROJECTS

E-Learning Management System

Stack: Java, Spring Boot, Spring Security, Hibernate/JPA, React.js, MySQL, REST APIs, Maven, Git/GitHub

- Built a full-stack, scalable e-learning platform implementing JWT authentication and Role-Based Access Control (RBAC) across Admin, Instructor, and Student modules.
- Designed backend services for course management, enrollment, assignments, quizzes, and progress tracking, paired with responsive React.js dashboards.
- Integrated an AI chatbot via the Groq API and an ASP.NET Core email microservice, routed through a Node.js/Express API Gateway; containerized services with Docker.

Employee Management System

Stack: Java, Spring Boot, React.js, MySQL, Hibernate ORM

- Developed a full-stack HR management platform automating employee records, leave workflows, and role-based access for Admin, Manager, and Employee roles.
- Implemented secure authentication/authorization and CRUD operations for employee data using Hibernate ORM and entity relationships.
- Added real-time chat, employee profile management, and salary slip generation with printing support, exposed via RESTful APIs.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, CSS, SQL, C++

Frameworks & Libraries: Spring Boot, Spring Security, Hibernate/JPA, React.js, Express.js

Database: MySQL

Tools & Platforms: Git, GitHub, Maven, Postman, Eclipse, Docker

Concepts: OOPs, REST APIs, JWT Authentication, RBAC, MVC & Layered Architecture, Microservices, Agile

ADDITIONAL INFORMATION

Languages Known: English, Hindi

Interests: Fitness, Traveling, Sports
